

HEAD COACH ADAM GASE

(Your thoughts on the fourth down dropped pass...) “Obviously if we catch it, it’s a big play. One play does not make a game. The biggest thing that we talked about the entire week was that bad things happen. You have to move on to the next play. My thing was how are we going to respond to this adversity?”

(Thoughts on the Dolphins offense being slow starting...) “We’re playing a really good defense. It’s tough keeping the ball. They did a really good job of taking away a lot of the things that we prepared for. We have to make some adjustments within the game. With these guys it’s a tough game of cat and mouse. They were one step ahead of us early. Some of the things that we had schemed by didn’t have our players in the best position possible. We tried to get through the game and make some adjustments as the game went on.”

(Towards the end of the game, did you feel your team had a pretty good shot at winning the game...) “What we had talked about was let’s get to the fourth quarter and see what happens. We had a chance, we took the lead. We had opportunities a couple of times to see if we could finish it on our terms. That’s what happens when you play good teams, it’s going to come down to probably the last drive of the game. It did and we came out on the wrong end this time.”

(Any second thoughts on going for it on fourth and inches...) “I’m going to do it a lot. That’s how were going to play.”

(Any thoughts on the Seahawks last drive...) “I thought our defense did a great job. To have us in the position we were in. I was more irritated that we couldn’t help them on the other side of the ball. We couldn’t get anything going. I kept watching those guys go out. I just knew we have to get something going because if we keep going three-and-out or four or five plays on the drive, it’s tough to put them in a bad situation on the other side of the ball, having that last drive to go down a score a touchdown. That’s what they needed there, a little bit of a rest so that we could compete on that last drive.”

(What did you say to your football team after the game...) “We can’t let one loss become two. We have 24 hours to feel sorry for yourself. Do whatever you want to do but we have to go on to the next opponent. We have to go on the road again. We have to get back to work.”

(What does that long touchdown drive by Tannehill in the fourth quarter say about him...) “Just the fact he went out there. Every time we come off a series, it what’s do we have to do now? The one thing that is big for us this being our first go as a group. Let’s not be the group that is white fingers and complaining about something that happened. Let’s be the group that’s finding solutions on the sideline. I felt like that’s exactly what that group was doing. Things weren’t going our way but they just kept coming back, what’s next, what should we go to, should we change up? They were trying to find solutions.”

(You had four players salute during the national anthem. What did you know about that beforehand...) “I didn’t know exactly what they were going to do. I knew that Arian (Foster) wanted to talk to the group. They had a discussion. We said were not sure if we’re going to do anything. If we do, do something, we’re not looking to do anything disrespectful. There’s nothing I’m able to say one way or the other because it a person’s opinion, it’s their right. My job is to coach the football team.”

(On Seattle's last drive, do they do anything different than what was expected...) "No, they just made some good plays. There were sometimes where we had some tight coverage. That's what happens when you play a good team and a quarterback that is a franchise guy. That's what he gets paid to do. He gets paid to figure out a way to make it work in the end."

(What happened on the missed field goal...) "Just talking to (Darren) Rizzi, we had some leakage there. We will have to go back and figure out what the exact problem was. It's unfortunate that it happened at that time in the game. Like I said earlier, we have to move on and figure out a way to put points on the board."

(Do you have an update on Mario Williams...) "No, I have nothing right now. I have to talk to the trainers."

(Thoughts on your defense...) "The whole defense did a great job. It's not an easy scheme to go against. That's a good group of players. Obviously there are a lot of people who think that team is going to be one of the final teams this season. We're playing a very tough team. Our defense did a great job, especially the d-line."

QB RYAN TANNEHILL

(On how he felt about the offense and his performance up to Miami's TD...) "We battled. We knew coming in that this was a good defense, and we were going to have to battle. I said earlier in the week, and it was kind of the message all week, we've just got to keep playing. Keep playing, keep playing, keep playing. We'll make plays and eventually get into the end zone. Obviously, we thought it was going to be sooner. Obviously we thought we'd score more points. But we had our opportunities. We'd get some chances, and we didn't connect on them, didn't make happen. Those are big. You play a good team, you've got to make the opportunities you get in the scoring zone or long plays count."

(On the play that was run on a failed fourth-down play was the play called...) "Yeah, we had the run called, and didn't get it. We knew coach likes to be aggressive in that situation. As a player you like that. You like that mentality, that belief in us that, hey, we can make it happen. The defense made a good play. So we have to correct that. If we get in that situation again we have to be able to pick up the first down and keep the chains rolling."

(On what happened on the drop by Kenny Stills...) "We ran a little combination, a corner fell off and I threw it up to Kenny. I don't know what happened on his end, but that's football. We just moved on from it and kept playing. We had other opportunities other than that to make plays, and we didn't make those, either. I saw a lot of good things from our guys. I saw guys battling, no panic throughout the game when things weren't going well. We're going three-and-out, there's no panic. No stress. Just stay the course. Keep plugging away, believing in each other, and eventually things are going to happen. We finally got that drive in the fourth quarter to go ahead, and I saw a lot from my guys on that drive, just the character that we have, and the playmakers that we have."

(On Seattle's defense...) "I wouldn't say they did anything crazy. They did some pressures that gave us trouble up front with the overloaded linemen; they put three on one side, and running all kind of games, and that's tough to do up front, especially when they have good rushers like they do. That gave us a little bit of trouble. But they had shown that on tape. It wasn't anything new. You just have to give credit

to those guys. They came out and played hard. They put a little pressure on us and kept us from converting on a few third downs when we had opportunities to.”

(On teammates who kneeled during the national anthem...) “We had a team discussion about it. I never really considered joining it. But it’s to the man. That’s what it came down to. If you want to stand up or kneel for what you believe in, then that’s your right, and we support you doing it, just like I’m going to support the guys who stand. They’re my teammates, and everyone has a reason for doing what they’re doing. That’s America. You have to stand up for what you believe in, and when the national anthem is over, be ready to play.”

(On his rollouts...) “There were a couple of situations where they had it covered all the way, and a few scrambles that I had, they did a good job of matching up to our guys. I kept waiting for someone to break free, but they did a really nice job of matching up with our guys downfield.”

(On the unsuccessful fourth down during the second series after a big gain by Arian Foster...) “I’d have to go back and look at it. We tried a hard count and we didn’t get them.

(On what can be taken away from this game to build on...) “There’s always something you can take away, whether you win by 30 or lose by 30 or lose by two. Both sides of the ball battle, just kept playing, kept hanging tough. The defense played their tails off, really stuck with the offense all day. The offense, when things weren’t going well we just kept battling, kept hanging in there, then we made a play coming down the stretch in the fourth quarter. There’s a lot we can take away from this game, build on and move forward.”

S ISA ABDUL-QUDDUS

(On his interception...) “He started running around a little bit, so I just made sure I was as deep as possible when the ball was in the air and just try to go get it.”

(On points allowed to Seattle's two-minute offense...) “I mean, it happened, they're a good team. It was maybe a couple mistakes we made, but they're a good team and we're a good defense. They made some plays and we didn't.”

OL LAREMY TUNSIL

(On his team's performance...) “I thought we put everything on the line, but there's always room for improvement. We will come back next week and do better.”

(On his performance playing left guard for the first time....) “I got to watch the film, so I really don't know. ”

(On how the offensive line did protecting the quarterback...) “I feel like we executed in the run-pass. Like I said, there's always room for improvement, next week we are going to bring it.”

(On the 86-yard drive late in the game and his quarterback's play...) “He puts everything on the line, so you have to respect a quarterback like that. He’s a good guy, we put everything on the line for nobody to touch him.”

(On completing his first NFL game...) “It felt good, got the jitters out, but there's always room for improvement, got to get ready for next week.”

(On the blocked field goal...) I got to look at the film. Correct what happened and get it right. We have to execute it next week."

(On if there was a moment to remember most from this game....) "No but it's my first game every, so it will always be a memory."

DT NDAMUKONG SUH

(On how he would describe this game...) "A tough loss, at the end of the day. I think we did some good things. Obviously we didn't do some good things in different areas. On the defensive side of the ball, we've just got to finish out a game. I think we were under four minutes, like three something left, so need to get off the field and get the ball back to the offense and get our offense going. We didn't accomplish that. At the end of the day, it's our job to get that done."

(On what gave Miami's defense trouble on Seattle final scoring drive...) "They just converted passes. Obviously, the fourth downs. They moved the chains. We've just got to find a way to get off the field and not allow them to convert in certain situations and kind of go from there."

(On if can find good things to build on from this game...) "I don't think you ever feel good with a loss. I personally will never feel good about a loss. I expect to win. Like I said before, we did some good things that we can build off, things we can learn from and take to the next game. We've got 24 hours, we're going to move forward and get ready for the Patriots."

(On if there was a missed holding call in the fourth quarter...) "I don't know. I don't pay attention to holding. I don't pay attention to anything (like that). Our job is to get the quarterback on the ground, and when the running back has the ball, make sure it's not a first down."

(On if he was satisfied with how the D-line played...) "No, I'm definitely not satisfied. I think we did some good things, like I said before, but you're never satisfied this early in the season. We're not perfect. I don't think we'll ever be perfect. But we can strive for perfection, and I think that's what we're going to do. So when we get a chance to watch this tape on the long ride home, we're going to figure out what mistakes we did and what we've got to learn from."

(On the frustration of giving up just one touchdown late...) "It's definitely tough. It's not something that we wanted to allow. It's on ourself as a defense to make sure we get that done the next time, especially in that situation."

S RESHAD JONES

(On what happened on the last drive...) "We just didn't make the plays and we didn't. They had the right calls, and we didn't make the right plays."

(On the team's confidence at the start of Seattle's touchdown drive...) "We're confident every time we step on the field. They just did a better job of making plays, and we didn't."

DE CAMERON WAKE

(On the final drive...) "I speak for most of the guys on that side of the ball, that's the way you want it. You want to be on the field. You want to be in position to take control. We just got to get a stop and we didn't

get it done. I'll have to look at the tape, but I am sure there are some things we could have done better to make sure that happened. Tough way to go out."

(On the way they played before the final drive...) "Well, it's not a 49 minute game, it's not a 52 minute game. You have to play the entire 60 minutes. No matter, what it is, no matter what the situation, we were right there, we had an opportunity to win. On defense it doesn't work that way. You can play great every play but two. But two touchdowns can change the game. It's not a pat on the back to say you did good for so long. You got to play the entire game."

(On if he lobbied to play more on that final drive...) "I am a guy that wants to be on the field no matter what especially situations where it is a key situation. At the same time, with the group that we have I am 100 percent confident in whoever comes in. We have a great group of guys. We have guys that have been in the fire. Jordan [Cameron] might be the youngest guy and he's seen his fair share of football. Other than that, whatever guys are out there you got to go out there and play to the level. Every one of us has that mentality. we want to get there on the field. When it's your time, your button is pressed, your number is called, you got to get in there and get the job done."

(On his playing time...) "It's always tough whether it's now or five years ago. You got to see the big picture and be smart. Coaching staff and I and we are doing the best to ensure myself and the other guys on the team or used to the best of our ability."

(On the most encouraging thing he saw in the defense...) "We just never say die. Just going out there and fighting is the way it's going to be. This league is not a situation where you are going to go out and get 40, 50 point blowouts. Every game is going to come down to a drive or a play to win a game. That's just the way the NFL is, a small margin an error can change the entire course of the game. If you play three quarter of great that's not good enough. You got to play the entire 60 minutes, whistle to whistle until it's over. I am not a guy who takes pats on the back. We are the only things that matter."

(On what he learned about the team today...) "There's nothing surprising. Going out there and playing, fighting, scratching that's the way I have seen since guys have come together so it wasn't new to me. I knew that we were going to go out there. I knew that we were going to do everything that we needed to do. It's just if anything it's just that we didn't make the plays that we should have made to close this thing out. Maybe some other people might have been surprised about us. That's not the way we feel."

(On what they need to do to close out games...) "It's not one specific area. There is a lot of places we had opportunities to win. More games are lost than won. I feel like we lost this game. It was on our backs, in our hands right in our grasp. We had opportunities to go there and put it away. What we have to do to fix is a hard call. I know we got to get back to work. Its short term. Another game is right in front of us. We have to get back to work starting tomorrow make sure we fix things that need to be fix. Put us in situations where we have those kinds of situations where one play can change a game or whatever it may be."

(On the decision to take a knee prior to kickoff...) "As far as I am concerned, I support anybody who chose to exercise their right to have an opinion. Everybody on this team is grown man, everybody has a way they think. They have experiences of their own. Football is very unique that you have a lot of guys coming from all different kinds of backgrounds race, religion, socio-economic, all that. We come together and we play. I feel like it's always something that has been created and blown out of proportion to be honest. You can be aware of things that are going on around your and also be in love with your country and love the

military and also speak out against injustices. Whoever exercises their right to protest in whatever way they do that's the nature of this country. that's supposed to be the nature of this country."
