

Cowboys Defense

Byron Jones

I know it's preseason and have a performance like that it's got to feel good, it feels like you're going in the right direction...

Exactly it feels good to see some good football on the film. And for us just to come out and score that many points on defense and get some stops and turnovers that's good for the entire team.

Early on you had that stop when they went for it on fourth down too. That's the kind of thing that can build some confidence on defense making some plays..

Exactly. Throughout the game you have multiple critical situations and you've got to show up. And for us in that particular situation, the fourth down stop was a critical situation and to complete that and shut that out was good for our defense.

How easy is it for you personally to get reps playing safety more in game situations? How far does that go for your growth?

It's good because like I said. As you guys know I didn't play just safety last year, I played multiple positions. So to finally have a home to build a foundation at one position is great for me.

Two games in that first team defense is playing pretty solid. What have you guys seen so far that gives you confidence to continue this?

Just responding to the critical situations. When the defense needs to get a stop they get a stop so that's a good start..
