

Cowboys Defense

Sean Lee

What was it like out there in front of the AT&T crowd and the fact that the defense was active it seems like you were flying around the ball?

It's so great being back home; being in front of our fans. We love the stadium, we love playing in front of our fans and I thought we took a step forward tonight. We had a great camp in California and we were excited to show it. But obviously there were still mistakes made and still room for improvement. We had a fun night.

Since you're a student of the game, let's look at the offense for second. Because Dak Prescott is surprising everybody. Is this what you've been seeing in training camp? He's been very impressive..

We knew early when he came in, going against our defense how much in control he was, how talented he was, how poised he was. He's done a really good job for us and it's exciting to watch him.
