POSTGAME QUOTES

Jets TE Austin Sefarian-Jenkins (transcribed by the New York Jets)

On being part of the game plan...

I think everyone has an opportunity to be part of the game plan. The unique thing about Coach John Morton's offense is that everyone is going to get looks. You saw how multiple guys got the ball throughout the game. I was fortunate enough to get open in spots. Josh got me the ball and I was able to do some things with it. The most important thing is that we won and I think that's why we all come out here and play. We want to win games. It's a four-quarter season. We're 1-2 in the first quarter and we're trying to even it out next week.

On what kind of physical shape he is in...

Obviously, I'm not as in as good shape as everyone else, but I think it did good enough to where I could make an impact on the game. I'm going to keep working to have better endurance.

On being able to help the team win...

It felt great. Anytime we can come out there and help the team get a W, it's great. These guys work so hard. Everyone comes here to win. Fans come here to watch games, to watch a winner. So to be able to give that to them in the home opener felt really good. I know they hear a lot of negativity, with all of the naysayers saying 'we can't do this' or 'we can't do that'. But it was great to win the home opener and for Chris Johnson to get his first win as Chairman & CEO.

On what it means to get a division win...

We were 0-1 in the division and to come out here against this Miami Dolphins team with a great defensive front, great linebackers and secondary, it was phenomenal. The coaches did a great job of coaching, and the players did a great job of playing. It was an all around great win. Special teams did a great job. We always harp about turnovers and this week, they (the Dolphins) tried to pull a fake punt when we were up 20-0 and we got a turnover out of it.

On what it meant for Chris Johnson to ask to join the players during the National Anthem...

The fact that he wanted to do that with us is a perfect example of the unity we are trying to create. I don't know many owners that would want to come down on the sidelines and be there with the players. It just shows how much he loves this team and how dedicated he is to this team. I feel very fortunate – I know everyone else feels very fortunate that we have an owner like that. We did that together and we won together today, so it was just a full circle win.

On if the team discussed doing something different other than kneeling...

No. We really didn't talk about that. We just talked about the game plan. When we decided to lock arms, it was, "Okay, we're going to lock arms, now back to the game plan." I understand that it's bothering people, but at the end of the day, we have to play football and win a football game. We decided to lock arms as a team. We won. The Jets beat the Miami Dolphins. That's the story.
