POSTGAME QUOTES

Ravens WR Jeremy Maclin (transcribed by the Baltimore Ravens)

(on his touchdown) "I think it was right on time. We were kind of catching them with 12 men on the field. It was a play where I had the only deep route, so I knew I was getting the ball. Joe [Flacco] put it right where it needed to be."

(on building on this win) "Unfortunately, we haven't had all of our pieces out there at one time. I think the last game we did was Oakland and we were able to do some pretty good stuff in the passing game and the running game. We've just got to keep fighting. We're battling injuries right now, but we've got a little bit of a mini-bye. Hopefully we'll get some guys back and we'll get ready for Tennessee."

(on the play that caused the Joe Flacco injury) "I thought it was dirty play personally. I don't think "Kiko's [Alonso] a dirty player, but I thought that particular play was dirty. Hopefully Joe [Flacco] can get himself ready to play, but if not we have to ride with [Ryan] Mallet and it's the next man up."

(on missing the last two games) "I don't know what report came out that I was going to play last week. It was one of those things that it was a game time decision. The doctor's didn't think that it was best for me to play. I'm still going to have to battle this thing and continue to get myself ready to play every day."
