POSTGAME QUOTES

Denver Broncos OLB Von Miller (transcribed by Jason D. Silver)

(Thoughts on the game and how things are going.) – “It’s a tough situation. I think everything that I probably could say up here I probably said. There’s a lot of stuff going on. Just not putting wins on the board at the end of the day. The defense is not playing good enough to win. I’m not playing good enough to win. The whole team, all of us, are included in this one. Tough times.”

(We know how much you put into preparation for this season. Do you feel like that entire location was invested as you are?) – “I...at the end of the day you really can’t worry about if everybody is doing the same stuff you are doing. It’s the National Football League. It’s the pros. You assume that everybody is training, getting up for the game in a professional way so I can’t really speculate with that. I do what I do and everybody else they do what they do.”

(Von you’ve been vocally supportive of Head Coach Vance Joseph before. What’s your confidence level with him today?) – “100 percent. He’s our coach. Just not putting wins on the board. Its...I don’t know...it’s everything is going wrong for us. Coach, it’s been over the place. If we could level out for him we would make his job easier as well. We have all types of situations, all types of problems going on. He’s doing the absolute best that he can do with everything that is going on.”

(Do you have any issue with the onside kick in there up 33-9? – “What?”

(With Head Coach Adam Gase, onside kicking there up 33-9. Did you take exception to that?) – “I was ready to go back out there. I’m trying to get a sack, a sack forced fumble. That’s the game. I’m not sitting on the sideline and saying, ‘Man why are you kicked the onside kick, just give us the ball.’ That’s loser football. If they want to kick an onside kick let them do it. We have to cover it. We have to get the ball back and we have to play. It’s the pros. If it was little league, yeah we would be upset but this is the pros.”

(Some guys were getting at, they’re trying to figure out what is the focus going forward? Like you said before do you just individualize it and then you play your best and then maybe that brushes/leads into the team? How do you look at these final four games?) – “It’s the pros so I think you come into the sport with an individual mindset. Individually you want to do great. Individually you want to do your job. Individually you want to play the best that you can possibly play. That doesn’t change. Individual success on the football field leads to the team’s success. It’s 33 guys out there. Everybody had their individual mindset to go out there, and not give up, and play, and do the best they can possibly do and try to take their game to the next level and keep working, we would

be okay with that. It's the pros. I'm not even worried about guys giving up anything like that. We got a family to feed. It's always something. It's always something to play for. Whatever the record might be, whatever games we have left. It's always something to play for."

(When you were down for a little bit on the field. Was it just cramps?) – "Yeah. Just cramps."

(I think it was after Philadelphia. It's not losing, but how you are losing. It doesn't look like Bronco football. Is that perhaps the most disturbing part of this, having trouble staying in games?) – "I mean, everything, everything is tough right now. Everything. What is Bronco football? We have to find that. We have to grind and get back to whatever it is. You can't say Bronco football is...what we did in 2015. That's two years ago. We have to find identity. We have to find the guys that're ready to take their game to the next level. We just have to keep fighting. It's the pros."
