### POSTGAME QUOTES

**Q: When you look at this team, after a game like this, where do you think you are? I mean, you have two left and you're very much, we know where you are mathematically, but as you look at it, what do you feel about this team, do you feel like you're in the playoffs?**

A: Every single day, we strive to be great. That's one of the things that Coach McDermott preaches every single day, we have to keep getting better, keep getting better ... And if we did that, if we do that, from the time we started all the way back in OTA's in December and early January, that's when we're starting to become our best, that Kaiser mentality. That's what we're trying to do as a team and luckily we were able to come out here today with a win.

**Q: Eddie, I'm sure the coaches have talked to you guys about kind of forcing [Jay] Cutler into mistakes. It really did happen, didn't it? The pressure you had forced him into mistakes.**

A: Cutler's an awesome quarterback. A lot of times, we had sacks on him but he just got the ball out so quick, so definitely showed his veteran ways today. At the same time, I'm proud of our defense, us guys up front and our back guys, we did a solid job in coverage. We can always improve, can always do better but we do see them again in two weeks so we're going to have to try our best moving forward.

**Q: How does it feel to have playoff hopes still hanging in the balance after everything you guys have been through in the past two months?**

A: We definitely take it one game at a time, but at the same time, you know that we're fighting to stay in the playoff hunt. Definitely a great, awesome time to get out here and get this win and still be eligible to go out and get that Wild Card. As long as we win, just take it one day at a time, one play at a time and we're just proud to get out here and win today.

**Q: You know who this team was when you saw them, they had an impressive game against New England on Monday Night Football. What was the mindset when you took them on today?**

A: As a team, the defense as a unit, and just as a team, we always just try to worry about what we can control. We can't really worry about who Miami's played, how they're going to play, if they play next week, the week after that ... All we can do is worry about what we do and how we can go out and take that step forward. That's what we did, we were worried about what we could do, and again, we were lucky to get out here with a win today.
