LAST 10 YEARS OF THE NFL DRAFT

10-YEAR DRAFT BREAKDOWN: OFFENSE VS. DEFENSE

Despite 133 offensive players drafted in 2024, it was just the second draft in the last 10 years where more offensive players were drafted than defensive:

LAST 10 DRAFTS BY POSITION

Over the last 10 NFL drafts, defensive backs have been selected the most of any position.

In 2024, 55 offensive linemen were drafted, one more than the 54 defensive backs that were selected, marking the first time offensive linemen were the most selected position group since 2015.

At least 50 defensive backs have been selected in seven of the last 10 drafts.

1994 was the first year that compensatory draft choices were awarded.

Las Vegas Raiders picks include those awarded to the Oakland Raiders.

L.A. Rams picks include those awarded to St. Louis Rams.

L.A. Chargers picks include those awarded to the San Diego Chargers.

Tennessee picks include those awarded to the Houston Oilers.

2025 NFL COMPENSATORY PICKS

The NFL awarded a total of 35 compensatory choices to 16 teams in the 2025 NFL Draft. The Dolphins are scheduled to have three compensatory selections, only trailing Baltimore and Dallas for the most in the NFL.

Under the rules for compensatory draft selections, a team losing more or better compensatory free agents than it acquires in the previous year is eligible to receive compensatory draft picks.

The compensatory picks will be positioned within the third and seventh rounds based on the value of the compensatory free agents lost.

Compensatory picks may be traded. A rule change approved by clubs in 2015 permits compensatory draft picks to be traded beginning in 2017.

Compensatory free agents are determined by a formula based on salary, playing time and postseason honors. The formula was developed by the NFL Management Council. Not every free agent lost or signed by a club is covered by this formula.

Beginning in 2021, special compensatory selections are awarded to promote equal employment opportunities and an inclusive workforce within NFL clubs. This initiative provides that the prior employer-club of a minority employee who has been hired by another club as its head coach or primary football executive (general manager) will receive compensation in the form of a special compensatory draft selection in the third round of each of the next two drafts, or in each of the next three drafts if two minority employees from the employer-club are hired for these positions by another club or clubs. The individual must have been employed for a minimum of two full seasons in order for the prior employer-club to receive the special compensatory selections.

DOLPHINS COMPENSATORY PICKS HISTORY

The Dolphins have been awarded 25 compensatory picks since 1994 when the NFL instituted the current formula for awarding teams that have net losses during free agency. The Dolphins have drafted 19 players with compensatory picks, as they traded one during the 2017 NFL Draft and traded two in 2020.

Miami has been awarded compensatory picks in 12 of the 32 drafts (since 1994). The most compensatory selections made by the team in one draft occurred in 2003 when four players were selected with compensatory picks.

The Dolphins' highest compensatory selection came in 1997 when linebacker Derrick Rodgers was picked in the third round with the 92nd overall selection.

K Caleb Sturgis was picked by Miami with a fifth-round compensatory selection (166th overall) in the 2013 NFL Draft.

LB Derrick Rodgers was the team's highest compensatory selection, going 92nd overall in the 1997 NFL Draft.
